Female Afro House DJ

Live sets & open-format

English & Arabic crowds

Available from 1 August

DJ Emy — Deep Focus studio session, Dubai

BIOGRAPHY

The artist.

DJ Emy is a GCC-based Afro House, Afro Tech and open-format DJ — and one of the region's few female artists commanding a peak-time floor in the genre. Born of the Middle East and built for the world, she reads a room in real time: opening a golden-hour rooftop with deep, tribal grooves, then driving a late club to its peak, moving fluently between English and Arabic crowds. Every set is played live — no pre-recorded loops, no autopilot. She is represented and managed end-to-end by Emy Vision Group, so a venue books one accountable, contracted point of contact.

THE SOUND

A set that tells a story.

She builds the night in arcs — deep, tribal Afro House that opens a room and lifts it, then reads the floor and takes it where it wants to go. Equally at home warming a rooftop or driving a peak-time club.
